

Cfl-s1 ARTIFICIAL GRASS

Cfl-s1 Artificial grass

A high quality product of landscaping grass, that is suitable for outdoor and indoor. That is why we have developed a solution that is immediate available: Cfl-s1 Artificial grass. Official test reports prove that the Cfl-s1 range can be used for indoor applications together with a resilience that is wanted for a long life.

✓ Flame retardant

The entire construction is designed in such a way, that this grass is flame retardant from top to bottom.

✓ Excellent specifications

The tufted construction has an excellent specification in resilience and stability.

✓ Multiple applications

Because it is flame retardant, it can be used for multiple applications, such as exhibition, eventing and landscaping.

✓ Safe use

All the specifications make it save to use for children and elderly people.

✓ Officially tested

The grass has been tested and classified officially on fire behaviour.

✓ Indoor use

Because of fire certificate, it can also be used for indoor projects.
