

ARTIFICIAL GRASS

Basic CO₂

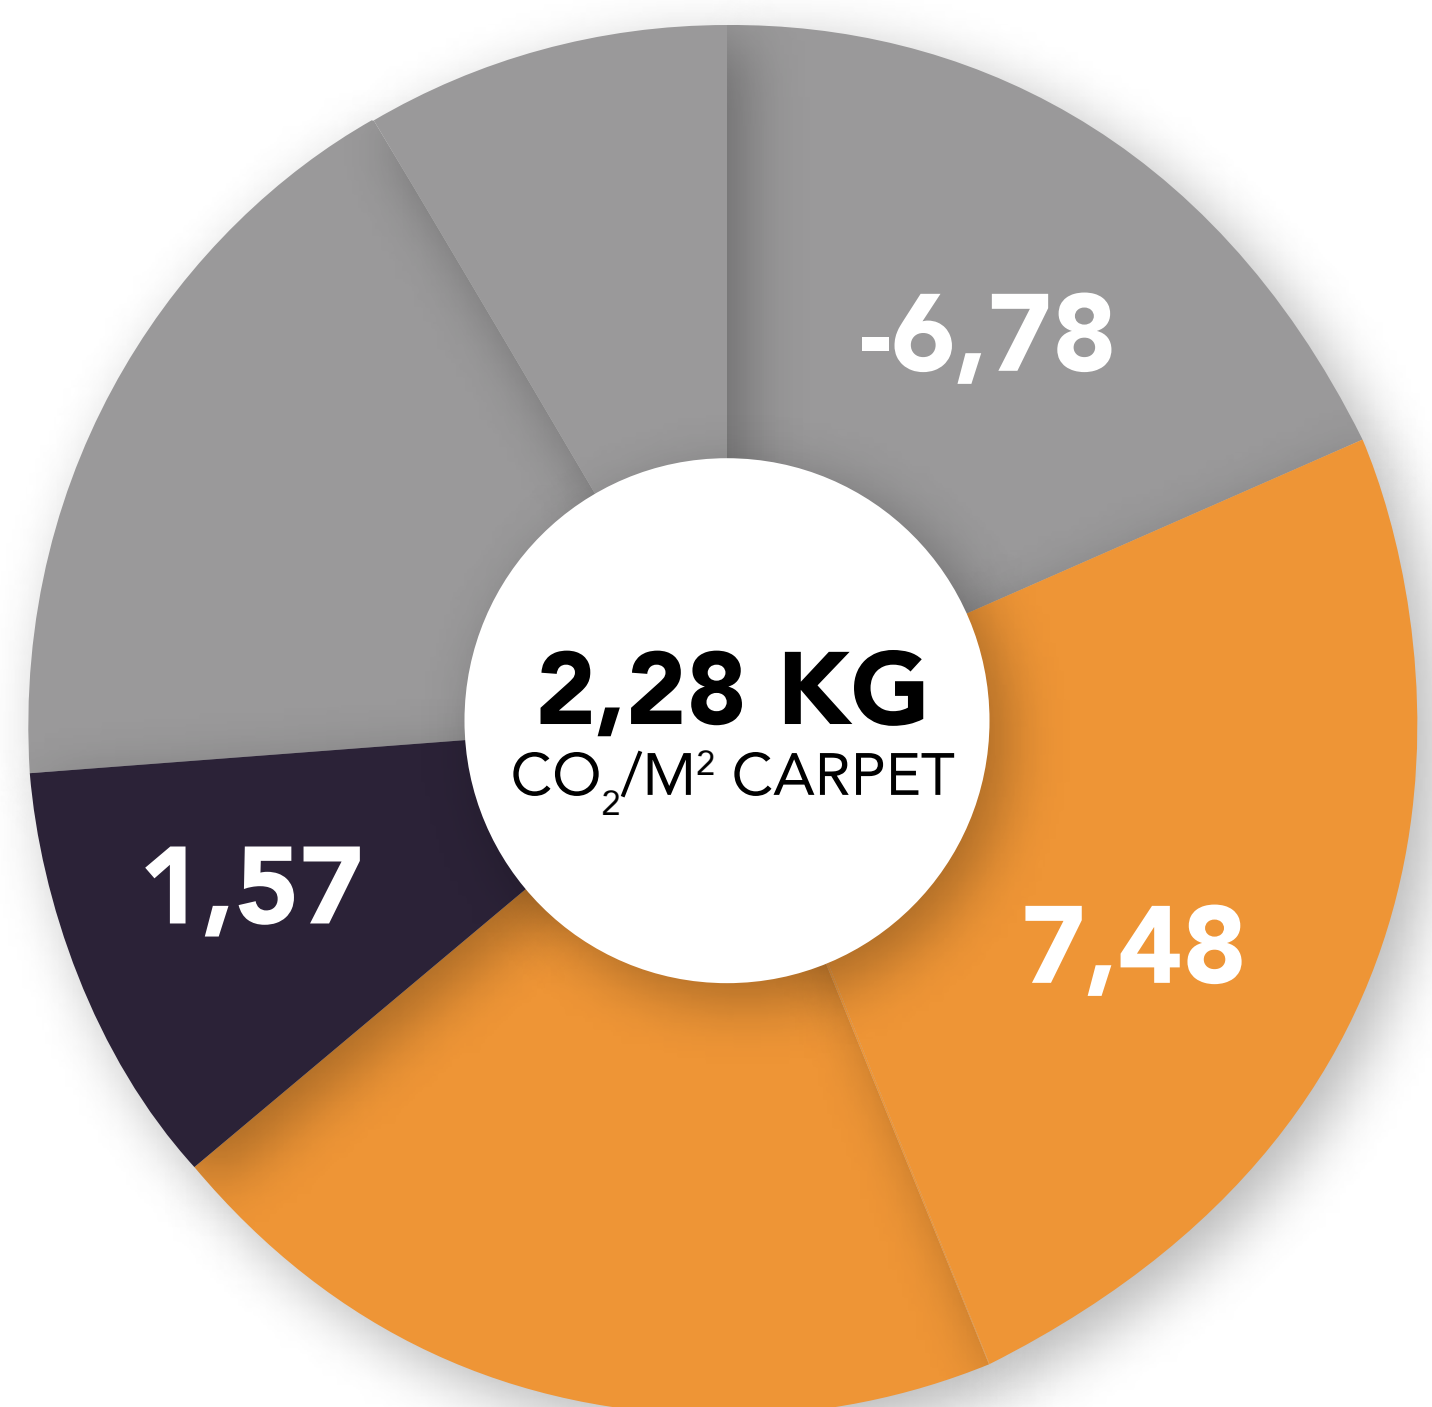

Doing better than Mother Nature herself is a difficult task. However, there is still an high demand for artificial grass solutions. Are you looking for landscaping products, Betap will be happy to surprise you with innovative artificial grass coverings that give even Mother Nature a run for her money. Especially with our new recyclable backings.

Next Gen

Gold 100% Reuse

This is our next generation artificial grass product. An 100% recyclable product due to a completely new yarn bonding technology and thus a much better footprint. Don't you want a sustainable product in your garden that doesn't irritate Mother Nature?
